

Test the Web in Exchange for Treats

Wanted! Usability Test Volunteers

What is usability testing?

Usability testing evaluates the functionality of online environments by observing the interaction of users with web interfaces.

Do I need any special skills to participate?

Usability testing does not require any special skills from participants. We are testing interfaces and NOT participants. A friendly Falvey employee will give you instructions and observe you while you perform a number of tasks on the Library's web site. The test will take about **30 minutes**. A gift basket with treats to sustain you through the end of semester rush will be yours as a token of our appreciation.

WHY?

Because of the treats! Who doesn't like to be surprised with a gift basket?
Because your participation will improve the Library's web site!

WHO?

All Villanova University students are invited to participate.

WHERE?

In Falvey Library of course.

WHEN?

April 23 - 27. We will contact you to schedule a 30 minute test session at your convenience.

HOW?

Fill out the sign up form on the back of this flyer.

QUESTIONS?

E-mail melanie.wood@villanova.edu if you have any further questions.

Test the Web in Exchange for Treats

VILLANOVA
UNIVERSITY

Falvey Memorial Library

Please fill out the form below if you are interested in participating. We will be in touch to schedule you for a usability test session at your convenience.

Name: _____

E-mail: _____

Phone: _____

Status: Freshman
 Sophomore
 Junior
 Senior
 Graduate student

Please note:

We are testing the functionality of the Library's web site and NOT your research skills.

Sign up today and help us improve the functionality of our web site.
